The gig economy continues to grow. The philosophy of flexibility and just-in-time labor management continues to move from industry to industry.

New York Times: Apr. 13, 2023

Research accrues slowly, whereas technology and its uses are evolving faster than anyone can fully keep up with.

New Yorker: Oct. 7, 2024

Globalization and technological change had shattered the livelihoods of working-class people and eviscerated their communities, provoking a groundswell of anger and resentment
